prised. "Through long suffering from
Dyspepsia," he writes, "my wife was
greatly run down. She had no strength
or vigor and suffered great distress
from her stomach, but she tried Elec-
tric Bitters which helped her at once,
and, after using four bottles, she is en-
tirely well, can eat anything. It's a
grand tonic, and its gentle laxative
qualities are splendid for torpid liver."
For indigestion, loss of Appetite,

S. J. Hodgkinson secured the agency
for Dr. King's New Discovery for Con-
sumption, the wonderful remedy that
has startled the world by its marvelous
cures. The furor of enthusiasm over
it has boomed their business, as the
demand for it is immense. They give
free trial bottles to sufferers, and posi-
tively guarantee it to cure Cough,

75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86,
87,

The present has its clouds which may extend into the future to darken the life of youth, so full of hope as it enters the contest in life for sublimation and advancement. Honorable ambition to succeed is commendable in every young man worthy to be called an American in the sense the term truly implies. It implies independence in action and thought, and, above all, that love of liberty which flows in the human heart to the enjoyment of life, which must be connected with manly hope that arises from a known future that is free for the attainment of the highest ambition to succeed in any department chosen to make a success in the work there is in life.

The clouds that threaten to darken the future of American youth are not misgivings that arise from overdrawn pictures by the imagination, but are real and laden with evil of the most serious nature. Evils which demand of every young man the most serious thought respecting his future opportunity to make for himself all that an American youth should desire to be, which is an upright, honorable man among his fellows, connected with a clear way to reach the most exalted position there is within the will of his countrymen to bestow.

Such has been the opportunity of each young man who has lived in the United States from the time the declaration was made and the constitution was formed, but a change is sought to be made by placing the dollar where the young man has occupied, and through removing him from the position to which he was born, efforts are being made to degrade him by giving him a place below the station that nature has prepared him to maintain, which is a position upon the earth next to God.

Politics and government are directed in a way to reverse nature and overthrow the Almighty by removing the order directed by his will. The dollar has been given a place next to God by the Republican party where the young man should occupy, and he is required to look through or over it when he lifts his heart in worship. The profanity mentioned would not effect the relation of young men to their creator, but there is a material relation it does effect which is fatal to their future when their success in business is subject to its influence. In the business of the country the dollar occupies the first or uppermost place, and he is given a position where the dollar will have to be secured by him or removed to open the way to success, such as has been given to each young American up to the beginning of McKinley's administration.

Efforts to secure the dollar will be largely out of the question as all the avenues leading to it will be closed by giving young men the position of servants to the dollar. It is not in the order of things for the servant to become greater than his master. When the avenues are closed that lead to the dollar the future position of the young man is that will be closing these of the country by the position of servants in some form for life, which will defeat the ambition of youth by confining it to a dreary future devoted to securing a living. Under such conditions the American young man will not be in a position to be proud of his country which will be depriving him of any opportunity to succeed in a manner that would equal his ability and ambition.

The only remedy there is remaining to young men, which they can apply is in a removal of the dollar from the position given it by the party in power; place it where nature and nature's God intended it should occupy, which is the place of a servant and there will be a change. When young men have concluded to change places with the dollar by giving it the relation it was intended to sustain to the business affairs of men, they will be masters of the situation.

The closed avenues to fortune and fame will again be open and will again blossom with fruit of a hopeful life that may be gathered when ripe in more mature years by those who have the will and make the effort to secure it. There is not a more hopeful movement connected with present political conditions than the reported activity of young men who are aiding in the removal of the blighting effect there is sought to be placed upon their business affairs. It is more than gratifying to learn of an observing their work that the intelligence and spirit of the young men in Reno is equal to a determined effort to aid in removing the weights there are upon their future and upon the future of each young man there is in the country.

They are declaring by their action that they are equal to the duty there is upon them to care for the future of their country which is so interwoven with their future that they are one and inseparable. It will be impossible for any young man to succeed, unless the highways to success are open and free to all who make an effort to rise in life. The dollar must be made their servant by removing it from its position as master over them, which has been given it by McKinley and commercial trusts.

MINES AND MINING

News of Nevada's Leading Industry Clipped From Exchanges.

Con. Cal. & Va. stock has been assessed 25 cents per share.

The gold yield of the State of Nevada is about \$3,000,000 a year.

The test run of the machinery of the new Gould & Curry mill at Virginia City was a perfect success.

Last week's ore shipments from Eureka were 141 tons and those from White Pine 53 tons.

Teams are hauling lead ore from the Rabbit foot mine, White Pine county, to Eureka for shipment to Salt Lake. The ore carries \$25 per ton in gold.

The Dexter mine at Tuscarora shipped \$8,500 to Salt Lake last week. The yield of the mine in September was about \$15,000.

Excursion to Plumas County.

One of General Manager Dunaway's first official acts yesterday was to arrange with General Manager Bowen of the S. V. R. R. for an excursion next Sunday to Clearville and return. The rate for the round trip will be four dollars. Comfortable seats will be provided for two hundred people. No change of cars. A car will be taken along to transport bicycles.

The journey from Reno is a magnificent one. The S. V. R. R. crosses the summit of the Sierras and traverses the beautiful Sierra Valley and down the scenic Feather river into the magnificent plains of Plumas. This trip will be the event of the season, not only for the enjoyment of the scenery but as a jubilee festival, celebrating the advent of a liberal management for the N.C.O.

This means much, very much for Reno and the people of this city should fill the train Sunday, if only as a means of showing their appreciation for Mr. Dunaway and Mr. Bowen and what they will do for us.

Music for the excursion party will be furnished by the Palace hotel orchestra, comprising Siquier L. G. Anttil, violinist, and J. Marius, harpist. Brief stops will be made at Vinton and Beckwith. The excursion party will remain five hours in the forests of Plumas.

Progress Toward Reorganization.

The motion of Oscar J. Smith in the matter of the attachment placed by the Bank of Nevada upon the new smelter was sustained yesterday. His client, Dr. Pierrepont Edwards, has been given the right to intervene. The bank has been allowed until November 8 to demur or move to strike out.

Dr. Edwards, who owns 60 per cent of the stock, is working along the line of reorganization. In a few days this matter will take definite shape and the smelter will probably resume operations before many weeks. A number of the leading business men and capitalists of Reno have announced their intention to subscribe heavily toward this enterprise as soon as it is gotten on a business basis.

Democratic National Platform

We, the representatives of the Democratic party of the United States, assembled in national convention on the anniversary of the adoption of the Declaration of Independence do reaffirm our faith in that immortal proclamation of the inalienable rights of man and our allegiance to the Constitution framed in harmony therewith by the fathers of the republic.

We hold with the United States Supreme Court that the Declaration of Independence is the spirit of our Government of which the Constitution is the form and letter. We declare again that all governments instituted among men derive their just powers from the consent of the governed that any government not based upon the consent of the governed is a tyranny and that to impose upon any people a government of force is to substitute the methods of imperialism for those of a republic.

We hold that the Constitution follows the flag and denounce the doctrine that an Executive or Congress deriving their existence and their powers from the Constitution can exercise lawful authority beyond it or in violation of it. We assert that no nation can long endure half republic and half empire and we warn the American people that imperialism abroad will lead quickly and inevitably to despotism at home.

Believing in these fundamental principles we denounce the Porto Rico law enacted by the Republican Congress, against the protest and opposition of the Democratic minority as a bold and open violation of the nation's organic law and a flagrant breach of the national good faith. It imposes upon the people of Porto Rico a government without their consent and taxation without representation. It dishonors the American people by repudiating a solemn pledge made in their behalf by the commanding General of our army, which has refused to be welcomed to a peaceful and unresisted occupation of their land. It dooms to poverty and distress a people whose helplessness appeals with peculiar force to our justice and magnanimity. In this, the first act of its imperialistic program, the Republican party seeks to commit the United States to a colonial policy inconsistent with republican institutions and condemned by the Supreme Court in numerous decisions.

Plank on the Cuban Question.

We demand the prompt and honest fulfillment of our pledge to the Cuban people and the world that the United States has no disposition or intention to exercise sovereignty jurisdiction or control over the island of Cuba, except for its pacification. The war ended nearly two years ago profound peace reigns over all the island and still the Administration keeps the government of the island from its people while Republican carpetbag officials plunder its revenues and exploit the colonial theory to the disgrace of the American people.

Philippines Policy Condemned.

We condemn and denounce the Philippine policy of the present Administration. It has embroiled the republic in an unnecessary war, sacrificed the lives of many of its noblest sons, placed the United States previously known and applauded throughout the world as the champion of freedom in the false and un-American position of crushing with military force the efforts of our former allies to achieve liberty and self government. The Filipinos cannot be citizens without endangering our civilization. They cannot be subjects without imperiling our form of government and as we are not willing to surrender our civilization or to convert the republic into an empire we favor the immediate declaration of the nation's purpose to give the Filipinos first a stable form of government, second, independence, and third protection from outside interference such as has been given for many years to the republics of Central and South America.

The greedy commercialism which dictated the Philippines policy of the Republican Administration attempts to justify it with the plea that it will pay, but even this sordid and unworthy plea fails when brought to the test of facts. The war of criminal aggression against the Filipinos entailing annually an expense of many millions has already cost more than any possible profit that could accrue from the entire Philippine trade for years to come. Furthermore when trade is extended at the expense of liberty the price is always too high.

Democrats and Territorial Expansion

We are not opposed to territorial expansion when it takes in desirable territory which can be added to States in the Union and whose people are willing and fit to become American citizens. We favor territorial expansion by every peaceful and legitimate means, but are unflinchingly opposed to the seizing or purchasing of distant islands to be governed outside the Constitution and whose people can never become citizens. We are in favor of extending the republic's influence among the nations, but believe that influence should be extended not by force and violence, but through the persuasive power of a high and honorable example.

Imperialism the Burning Issue.

The importance of other questions pending before the American people is in now diminished and the Democratic party takes no backward step from its position on them but the burning issue of imperialism growing out of the Spanish war involves the very existence of the republic and the destruction of our free institutions. We regard it as the paramount issue of the campaign.

The declaration in the Republican platform adopted at the Philadelphia convention held in June 1900 that the Republican party "steadfastly adheres to the policy announced in the Monroe doctrine is manifestly insincere and deceptive. This professed policy is contradicted by the avowed policy of the party in opposition to the spirit of the Monroe doctrine to acquire and hold sovereignty over large areas of territory and large numbers of people in the eastern hemisphere. We insist on the strict maintenance of the Monroe doctrine in all its integrity both in letter and in spirit as necessary to prevent the extension of European authority on this continent and to maintain our supremacy in American affairs. At the same time we declare that no American people shall ever be held by force in unwilling subjection to European authority.

Opposition to Militarism

We oppose militarism. It means constant abroad and intimidation and oppression at home. It means the strong arm which has been used to force free institutions. It is what millions of our citizens have fled from in Europe. It will impose upon our race a heavy burden of taxation and a constant menace to their liberties. A small standing army and a well disciplined State militia are sufficient in time of peace. This republic has no place for a vast military service and conscription when the nation is in danger the volunteer soldier is the best defender. The national guard of the United States should ever be cherished in the patriotic hearts of a free people. Such organizations are ever an element of strength and safety. For the first time in our history and coeval with the Philippine conquest has there been a wholesale departure from our time honored and approved system of volunteer organization. We denounce it as un-American un-democratic and as a subversion of the ancient and tried principles of a free people.

Democrats and the Trust Issue.

Private monopolies are indefensible and intolerable. They destroy competition, contrive the loss of all material and financial

products, thus robbing both producer and consumer. They lessen the employment of labor and thereby fix the terms and conditions thereof, and deprive individual energy and small capital of their opportunity for betterment. They are the most efficient means yet devised for appropriating the fruits of industry to the benefit of the few at the expense of the many and unless their insatiable greed is checked all wealth will be aggregated in a few hands and the republic will be destroyed. The dishonest partnering with the trust evil by the Republican party in State and national platforms is conclusive proof of the truth of the charge that trusts are the legitimate product of Republican policies that they are fostered by Republican laws and that they are protected by the Republican Administration in return for campaign subscriptions and political support.

War Declared on Private Monopolies.

We pledge the Democratic party to an unceasing warfare in nation State and city against private monopoly in every form. Existing laws against trusts must be enforced and more stringent ones must be enacted providing for publicity as to affairs of corporations engaged in interstate commerce and requiring all corporations to show before doing business outside of the State of their origin that they have no water in their stock and that they have not attempted and are not attempting to monopolize any branch of business or the production of any articles of merchandise and the whole constitutional power of Congress over interstate commerce the mails and all modes of interstate communication shall be exercised by the enactment of comprehensive laws upon the subject of trusts. Tariff laws should be amended by putting the products of trusts upon the free list to prevent monopoly under the plea of protection.

The failure of the present Republican Administration with an absolute control over all the branches of national government to enact any legislation designed to prevent or even curtail the absorbing power of trusts and illegal combinations or to enforce the anti-trust laws already on the statute books, prove the insincerity of the high-sounding phrases of the Republican platform. Corporations should be protected in all their rights, and legitimate interests should be respected but any attempt by corporations to interfere with the public affairs of the people or to control the sovereignty which created them should be forbidden under such penalties as will make such attempts impossible.

We condemn the Dingley tariff law as a trust-breeding measure skillfully devised to give the few favors which they do not deserve and to place upon the many burdens which they should not bear.

We favor such an enlargement of the scope of the interstate commerce law as will enable the commission to protect individuals and communities from discrimination and the public from unjust and unfair transportation rates.

Free Coinage and Paper Money.

We reaffirm and endorse the principles of the national Democratic platform adopted at Chicago in 1896, and we reiterate the demand of that platform for an American financial system made by the American people for themselves which shall restore and maintain a bimetallic price level and as part of such system the immediate restoration of the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation.

We denounce the currency bill enacted at the last session of Congress as a step toward in the Republican policy which aims to discredit the sovereign right of the national Government to issue all money, whether coin or paper and to bestow upon national banks the power to issue and control the volume of paper money for their own benefit. A permanent national bank currency, secured by government bonds, must have a permanent debt to fasten upon it the bank currency is to increase with population and business the debt must also increase. The Republican currency scheme is, therefore a scheme for fastening upon the taxpayer a perpetual and growing debt for the benefit of the banks. We are opposed to this private corporation paper circulated as money, but without legal tender qualities, and demand the retirement of national bank notes as fast as government paper or silver certificates can be substituted for them.

We favor an amendment to the federal Constitution providing for the election of United States Senators by direct vote of the people and we favor direct legislation wherever practicable.

Opposition to Government by Injunction.

We are opposed to government by injunction. We denounce the blacklist and favor arbitration as a means of settling disputes between corporations and their employees.

In the interest of American labor and the upbuilding of the workingman as the corner stone of the prosperity of our country we recommend the Congress establish a Department of Labor in charge of a Secretary with a seat in the Cabinet believing that the elevation of the American laborer will bring with it increased production and increased prosperity to our country at home and to our commerce abroad.

We are proud of the courage and fidelity of the American soldiers and sailors in all our wars, we favor liberal pensions to them and their dependents and we reiterate the position taken in the Chicago platform of the fact of enlistment and service shall be deemed as evidence against disease and disability before enlistment.

In Favor of Nicaragua Canal.

We favor the immediate construction, ownership and control of the Nicaraguan canal by the United States and we denounce the insincerity of the plank adopted in the Republican national convention for an isthmian canal in the face of the failure of the Republican majority to pass the Hay-Pauncefote treaty as a surrender of American rights and interests, not to be tolerated by the American people.

We denounce the failure of the Republican party to carry out its pledges to grant Statehood to the territories of Arizona, New Mexico and Oklahoma, and we promise the people of those territories immediate Statehood and home rule during their condition as territories and we favor home rule as a territorial form of government for Alaska and Porto Rico.

Improvement of Arid Lands.

We favor an intelligent system of improving the arid lands of the West storing the water for purposes of irrigation and the holding of such lands for actual settlers.

We favor the continuance and strict enforcement of the Chinese exclusion law and its application to the same classes of all Asiatic races.

Jefferson said "Peace commerce and honest friendship with all nations, entangling alliances with none." We approve this wholesome doctrine and earnestly protest against the Republican departure which has involved us in so-called world politics including the diplomacy of Europe and intrigue and land-grabbing of Asia and we especially condemn the ill-concealed Republican alliance with England which must mean discrimination against other friendly nations, and which has already stifled the nation's voice while liberty is being strangled in Africa.

Sympathy for Struggling Boers.

Believing in the principles of self-government and rejecting as did our forefathers the claim of monarchy, we view with indignation the purpose of England to overwhelm with force the South African republics. Speaking as we believe, for the entire American nation, except its

Republican officeholders, and for all free men everywhere, we extend our sympathies to the heroic burghers in their unequal struggle to maintain their liberty and independence.

Repeal of the War Taxes.

We denounce the lavish appropriations of the recent Republican Congresses which have kept taxes high and which threaten the perpetuation of oppressive war levies. We oppose the accumulation of a surplus to be squandered in such barefaced frauds upon the taxpayers as the shipping subsidy bill, which under the false pretense of prospering American ship-building, would put unearned millions into the pockets of favorite contributors to the Republican campaign fund. We favor the reduction and speedy repeal of the war taxes and a return to the time-honored Democratic policy of strict economy in governmental expenditures.

Believing that our most cherished institutions are in great peril, that the very existence of our constitutional republic is at stake and that the decision now to be rendered will determine whether or not our children are to enjoy those blessed privileges of free government which have made the United States great, prosperous and honored, we earnestly ask for the hearty support of the liberty-loving American people regardless of previous party affiliations.

Democratic State Platform.

We hail with satisfaction the nomination of William Jennings Bryan and Adlai E. Stevenson for the Presidency and Vice-Presidency of the United States, by the action of the Democratic, Silver Republican and Populist parties of the United States.

We rejoice that the new Democracy of 1896, which was the old Democracy of Jefferson, and is closely allied in faith and purpose to the Republicanism of Lincoln, has again been reasserted in 1900, and that it is receiving the united support of the reform forces. We declare our belief that no reason now exists for the division of the reform forces into three independent organizations, and that unity of organization, as well as unity of purpose, is the demand of the hour.

We believe that the doctrines of the Chicago and Kansas City platforms cover all that is needed in the enforcement of our traditional principles of government, and all that is now attainable in the line of reform, and should satisfy the reasonable expectations of all reformers and lovers of their country, that the pure and exalted character of William Jennings Bryan fill every requirement of leadership and that patriotic duty demands the perfect union into one political party organization of all the parties now enlisted under his leadership.

National Platform.

We endorse the platform of the national Democratic party, adopted at Kansas City, and pledge our support to all of its declarations, and particularly to those relating to the silver and monetary questions, and also imperialism and the trusts. The natural offering of the platform of the Republican party, which has increased in boldness and intensity since the demonetization of silver in 1873 until now, in 1900, it has practically substituted for the Declaration of Independence the methods of imperialism in the administration of our national government.

Silver Question.

We hold that the silver question is one of the important issues of this campaign, and that it will never be permanently settled until our mints are opened to the free and unlimited coinage of silver at the ratio of sixteen to one, regardless of the consent of other nations. We congratulate the supporters of Bryan and Stevenson in Nevada that they are not subjected to the humiliating necessity of abrogating or modifying any plank in their national platform for the accommodation of their Congressional nominees. The platform as adopted at Kansas City is broad enough for our national and State candidates, and it contains not a word the elimination of which would add an iota of strength to the local nominees.

Trusts.

We oppose the trusts and combinations which control the products of industry and rob the people of their property, and we denounce the Republican party which creates and fosters them. We especially denounce the scheme of the Republican Administration to create the greatest of all monopolies, in delegating to the national banks the exclusive right to make and issue the people's money.

Our Flag.

We condemn the cowardly and inconsistent policy of the Republican Administration, which plants our flag of freedom defiantly in the faces of those struggling for liberty in the Philippines, yet hauls it down from where it has honorably and rightfully been for a third of a century in the Porcupine mining district of Alaska.

The Boers.

We extend to the brave Boers of South Africa our sympathy and moral support in their patriotic struggle for the right of self-government, and we are unflinchingly opposed to any alliance, open or covert between the United States and any other nation which will tend to the destruction or abridgement of human liberty.

Porto Rico.

The Declaration of Independence, the Constitution and the flag are one and inseparable. The island of Porto Rico is a part of the territory of the United States and by denying the freedom of trade between that island and the United States and placing upon it the burdens of certain duties, as well as by denying its people a Delegate to Congress, the Administration has violated the Constitution, abandoned the fundamental principles of American liberty, and has striven to give the lie to the contention of our forefathers that all men are created equal, that government rests for its sanction upon the consent of the governed, and that representation and taxation are inseparable.

Lotteries and Prizefighting.

We reject the proposed Constitutional amendment removing the prohibition as to lotteries. We also favor the repeal of the statute licensing prizefighting in Nevada and pledge our Legislative nominees to vote in accordance with the letter and spirit of both sections of this resolution.

Labor.

We believe in the regulation of the hours of labor by the State and that a shortening of such hours will tend to the material advancement, prosperity and happiness of those who labor. We therefore pledge our candidates for the Legislature to the passage of an eight-hour law applicable to all labor in mines, mills, smelters and other works for reducing or refining ores and to extend such law to other classes of labor to which it is applicable after hearing and consulting with the representatives of such classes, and to provide by law for adding to the duties of one of the State officers, without additional salary, the duty of Commissioner of Labor, who shall collect all statistics relating to labor in this State and who shall make recommendations to the Legislature from time to time as to appropriate legislation.

Water Storage.

We believe that water storage for arid lands should be recognized by the gen-

eral Government as a part of its internal improvement system and that liberal appropriations should be made for that purpose, and we call attention to the specific declaration in this behalf in the national platform, favoring an intelligent system of improving the arid lands of the West, storing the waters for the purposes of irrigation, and the holding of such land for actual settlers. We believe that the development of the republic within the arid regions, by a proper system of internal improvement, will build up an empire based on equal citizenship far surpassing the power and glory of any empire based on the acquisition of distant countries and the subjection of inferior races.

University and Schools.

We recognize the high efficiency and usefulness of our University, and favor legislation which will advance its aims and purposes. We also recognize the necessity of maintaining the excellence of our public schools, and we are opposed to any legislation which will diminish or improperly divert the income of our schools.

Interstate Commerce.

We demand such legislation as will protect individuals and communities from unjust discrimination, and the public from unjust and unfair transportation rates.

Corrupt Practices.

We demand the passage of a law reasonably limiting the expenditures of candidates in elections, and preventing corrupt practices in such elections.

Senator Stewart's Defection.

We congratulate the bimetallicists of Nevada upon being rid of an impostor, who has practiced upon their credulity for the last twelve years. We allude to Senator William M. Stewart, who has at last thrown off the silver-plated mask which he so clumsily wore during three Senatorial campaigns, and now appears in his true character of Republican camp-follower and subservient tool of the pre-gold standard imperialistic and trust-fostering Administration.

We wish our opponents the same unalloyed joy upon their acquisition that is experienced by all true silver men in their riddance of a traitor, and his conversion from a pretended friend to an open, and therefore harmless, enemy.

Our Member in Congress.

We recognize in our Representative in Congress, Hon. Francis G. Newlands, an honest and capable legislator, who has been faithful to his trust and devoted to the best interests of the people of Nevada. We resent the insinuation in the Republican platform that he is not a bona fide member of our commonwealth, and we declare that his residence of twelve years in this State his home in Washoe county his identification with the various interests and industries of Nevada, his active identification with the silver question both before and after he entered Congress, his long and honorable service in Congress during which he has been advanced from one important committee to another until now he is a member of the leading and governing committee of the House—the Ways and Means, and his record as evidenced by his votes in Congress, commend him to the favorable consideration of the voters of Nevada at the ensuing election.

The Railroad and Home Rule.

The Central Pacific Railroad debt having been funded, and the control of that railroad having become vested in the Southern Pacific we recognize the fact that for many years transportation in this State will be in the control of the Southern Pacific system. Whilst we favored national legislation by which the Central Pacific could have been held as an independent line according to its original purpose, we realize that recent events have rendered this hope impossible and that the development of this State will mainly depend upon the liberal policy and wise management of the Southern Pacific system. We invite the cooperation of the management of the Southern Pacific in the building up of the commonwealth, the development of its resources, the increase of its population and in the economic advancement and beneficial government of the State. We suggest the appointment of a general manager or agent in this State trained in the science of railroad and whose residence here will bring him in touch with the public-spirited citizens of the commonwealth with its varied industries and enterprises and with the needs and requirements of the people, as well as in sympathy with measures tending to good government in the place of permitting the official interference with our local political affairs by railroad lords, living whose residence is in California, who has no knowledge of our interests in State development whose activity in the State is purely political in character, and who obtrudes his offensive personality into every branch of our State municipal and county government and interferes with legislation with which the railroad has no concern. Every principle of common sense requires that this officious interference with our affairs by a non-resident political boss should end.

Constitutional Convention

The people of Nevada have twice voted in favor of calling a constitutional convention and each time their will has been thwarted by subsequent technicalities which have defeated the purpose sought. We believe that our present Constitution is unfitted for the present conditions of the State and an obstruction to any general scheme of economic reform and that it should be so changed as to meet the requirements of the times. We therefore pledge our Legislative nominees to vote for the calling of such convention.

* * *

Silver Party State Platform.

We the representatives of the Silver party of Nevada in convention assembled do hereby declare these as our principles and invite the co-operation of all who agree therewith.

We declare that the principles enumerated in the Declaration of Independence are those of eternal truth and inexorable justice in their application to the government of men.

We submit that the historic words of Washington in his farewell address are the words of enlightened wisdom, flowing from the immortal man's inspired conception of truth and justice. We point to the words of Jefferson as those of an exalted American statesmanship. We hold in deep reverence the grand philanthropy and the splendid patriotism of Abraham Lincoln that great interpreter of our national history, and the world recognized apostle of human liberty and industrial freedom and we solemnly declare our firm adherence as maintained by that convention which nominated the beloved emancipator, to the principles proclaimed in the Declaration of Independence and embodied in the Constitution of the United States.

Bimetallicism.

We say to those who oppose us, that party which helped to give to America its declaration of monetary independence remains unalterably loyal to the principles involved—principles which have been incorporated into every Republican national platform from 1873 to 1896. We emphatically condemn that Republican President and that Republican Congress, who, at the evident behest of corrupt power, have deliberately and in the face of their party declaration that bimetallicism is a debatable thing, passed a currency bill repudiating bimetallicism, and in all practical ways harnessing the gold standard upon the American people. We reaffirm our supreme faith in the justice

of bimetallicism to the masses of the American people, and we declare our unflinching confidence in the ultimate victory of a cause which has for its champion a man who declared that he would refuse the nomination for the Presidency from a great party if that party failed in its allegiance to the silver cause.

The Trusts.

We declare unceasing warfare upon trusts and upon all unholy combinations of capital, which garner the fruits of legitimate labor to build up colossal fortunes for the enrichment of the few, and whose operations inevitably tend to the detriment and impoverishment of the great body of American labor.

Bryan.

We declare our unequivocal support of William J. Bryan and Adlai E. Stevenson, for the Presidency and Vice-Presidency, respectively of the United States, and our unqualified endorsement of every principle for which they stand.

Imperialism.

We announce our deep sympathy with every people struggling for human freedom, and for the establishment or preservation of the immortal doctrine of equal rights among men, and denounce in specific terms all efforts to stifle liberty and every endeavor to enforce upon any people those unrighteous conditions against which the revolutionary fathers contended with their life's blood.

Public Grazing Lands.

In line with our opposition to any control of public utilities by private citizens or combinations of capital, we here declare our emphatic dissent from any proposal to lease the public domain, recognizing in such a step the danger that would inevitably accrue to the honest struggler of limited means, and we instruct our Representative in Congress to use every honest, honorable and reasonable method to defeat such a measure should it be presented to the national legislature.

Eight-hour Work Day.

We favor a work day of eight hours on all public works in which the State, county or municipality is the employer.

State Administration.

We demand the strictest economy, compatible with good business methods, in the management of all State offices and institutions.

Water Storage.

We believe that much of the future progress and upbuilding of our State depends upon a wise, judicious and successful plan for the storage of unappropriated water for irrigation purposes, and we recommend such local and State legislation as would bring about the reclamation of all arid lands.

Election of Senators.

We favor the election of United States Senators by direct vote of the people for the reason that such a method of election would return power to the hands where it properly belongs.

Patronage.

We favor and advocate the filling of all appointive positions controlled by our Representative and Senators with residents of Nevada.

Education and Interest on State Lands.

We commend the Silver party for its wise and successful support and advancement of the interests of the State University, and of our public school system, and we declare our opposition to the reduction of the rate of interest on land contracts made with the State as a move which would lessen the income and efficiency of our educational institutions, recommending to the Silver party county conventions that they pledge their nominees to the Legislature to maintain the present rate of interest.

Lottery.

We believe that the establishment of a lottery in this State would be an assault upon the moral integrity of our people and would result in financial degradation and political corruption and we therefore say in the language of the Constitution of the State of Nevada "No lottery shall be authorized by this State, nor shall the sale of lottery tickets be allowed." And we recommend to the various Silver party county conventions that they pledge their legislative nominees to oppose any amendment to the Constitution proposing the authorization of a lottery.

Tax System.

We submit that the tax rolls of the State of Nevada indicate a valuation of property within its borders of less than twenty-four million dollars with an average rate of about four dollars on the hundred, of which the State's proportion is one dollar, that with a proper valuation placed upon the property of outside the tax roll should show a valuation of one hundred million dollars' worth of property, that a true assessment adjusted nearer to the equal value of property would reduce the average county taxes to perhaps one dollar on the hundred, with the State's proportion at about twenty-five cents on the hundred, that this undervaluation of property results in abnormally high tax rates and is crippling our industries in addition to being a menace to the investment of outside capital. We therefore recommend to all Silver party county conventions that they pledge their nominees to the Legislature to support such measures as will bring about a reform in this direction.

Resolution.

Whereas, At a meeting of the State Central Committee of the Silver party, held at Carson City during the Senatorial contest in January, 1898, resolutions were passed by said committee in commemoration of the good faith and party loyalty of the Hon. Francis G. Newlands, and

Whereas, At such meeting Hon. W. E. Sharon was deposed from the chairmanship of the State Central Committee, largely by means of proxies obtained by and under the control of Senator William M. Stewart, without proper notice as to the purpose of the meeting; and

Whereas, It has since been demonstrated that the charges then made against the Hon. Francis G. Newlands were absolutely false and that the real traitor to the silver cause was Senator William M. Stewart, as has been demonstrated by his recent action, therefore, we resolve that the resolution condemning Hon. Francis G. Newlands be stricken and expunged from the records of the State Central Committee of the Silver party and that the committee be instructed to commend the convention for his foresight two years ago and for his action in opposition to the re-election of William M. Stewart, because of the latter's treason to the silver organization in the campaign of 1898.

And we further denounce the recent course and action of William M. Stewart from this State.

And we further resolve that the action of the State Central Committee deposing W. E. Sharon from the chairmanship of the State Central Committee be rescinded and expunged from the record.

To the People of Nevada.

There is a man in this Nevada whose public career and private life, whose manhood and consistency have intensified our faith in him as the foremost statesman of our time, as a man above reproach and beyond the pale of corrupt influence of any nature. We hail him as the appointed instrument to lead against this Republic and its institutions against unholy and unchristian methods of every description upon our faith, our patriotism and our traditions. This man is pure of life and exalted ability and clean motives, and we believe that any citizen of this commonwealth will honor himself by supporting for the Presidency of the United States, William J. Bryan.

OPEN AIR
MEETING

The Young Men's Newlands Club
Holds an Enthusiastic
Meeting.

The first open air meeting in the
campaign took place last evening. It
was given by the Young Men's New-
lands Club, and was a gallant demon-
stration.

Shortly before 8 o'clock the "anvil
chorus" from Tannhauser, or some
other opera, made itself heard on the
Plaza—the first gun of the battle of
the ballots that will result in over-
whelming victory for the whole fusion
ticket, from Bryan and Newlands
down to the candidate for poondmas-
ter, provided any Democrat or Silverite
wants an office of that sort.

The parade started from Bryan club
hall. First came Ferguson's band,
followed by a host of torch carriers
and banner bearers.

E. E. Copeland was the first speaker.
He nailed and clinched the campaign
lie as to Mr. Newlands' non-residence.
He spoke in eloquent language of his
services for the State, proclaiming
him a liberal, broad-minded and pub-
lic-spirited citizen, an able statesman
and a good man.

Mr. Newlands' interest in and ser-
vices for irrigation and silver mark
him as the ablest and best representa-
tive the State could have in Congress.
His large investments in Nevada insu-
re that he will always labor ear-
nestly for the material advancement of
the State.

George S. Brown of Elko was then
introduced to the audience.

Mr. Brown began by congratulating
the Young Men's Newlands Club on
its large membership and enthusiasm,
predicting that if they kept up their
present endeavors until election day
they would materially aid in giving
Bryan and Newlands a handsome
majority.

"The old saying that a prophet is not
without honor save in his own country
and in his own house is not applicable
in the present instance as shown by
your bestowing Mr. Newlands' name
upon the club, evidencing your grati-
tude for his services for this city as
well as for the State. Mr. Newlands'
large investments in local enterprises
and services for Nevada are certainly
appreciated in our Congressman's own
home."

Mr. Brown inquired if the people
of Nevada fully realized how promi-
nent Mr. Newlands is in national
affairs. Before the speaker came to
Nevada he knew of Mr. Newlands' high
standing in political life. From 1890,
when he went to St. Louis as delegate
to the first national Silver Congress
and was appointed vice-chairman of
the national committee, Mr. Newlands
has been recognized as one of the
leaders in the great contest for the
restoration of silver. Mr. Newlands
has always remained faithful to the
cause of the white metal, although
other men, even more highly honored
by the voters of Nevada, have basely
deserted the cause which they as well
as their constituents had declared to
be the paramount issue.

The speaker referred to Mr. New-
lands' services in Congress especially
along the lines of the currency, finance,
irrigation and water storage and for-
eign affairs and his promotion to mem-
bership in the chief committee in the
House, to which only men of signal
ability have been chosen. "The posi-
tions that have been bestowed upon
Mr. Newlands, which showed the esteem
in which he is held by his associates,
reflect honor upon his constituents
and upon the State."

The speaker then addressed himself
particularly to the young men in the
audience, impressing the importance
of casting right their first vote and
of making a wise choice between the
national parties.

He then said: "The principles of the
Declaration of Independence, which
we have all been taught as axiomatic,
are to-day denied by the leaders of the
Republican party, who tell us that the
Declaration of Independence is anti-
quated and its political philosophy
unsound."

The speaker referred to the wisdom
of the authors and signers of this
document and the sacrifices made by
the revolutionary patriots to uphold
its principles.

Mr. Newlands was then called to the
platform. He made an eloquent ad-
dress, confining himself largely to the
topic of imperialism.

"It is not surprising that the men
who denied the fundamental prin-
ciples of our government have openly
and persistently violated both the
letter and the spirit of the constitu-
tion."

The speaker cited as instances the
Porto Rican tariff law and the ad-
ministration's treatment of the Fili-
pines. He closed by warning the
young men not to choose a party
which had turned its back on the
truths regarded as self-evident by the
founders of the republic, and had dis-
regarded the limitations imposed on
the President and Congress by the
supreme law of the land.

Mr. Lindley, superintendent of the
Granite Creek Mining Co. of Chicago,
which operated around Golconda last
year considerably, has returned from
Chicago and is now in Golconda.

parachute darted downward for several
hundred feet before opening. Then,
swaying gently to and fro, it touched
terra firma within a couple of hundred
yards from the starting point.

A New Camp.
Along the N.-O.-O., near Cold Springs, a new mining camp has been started. There is a little city of tents at the base of the mountain.
A number of claims are being developed by J. A. Pothoff, Norcross brothers, Brown and Higley and D. W. Couts. They have about fifteen men employed. The claims show surface indications of copper.

A Raw Writeup.
Ml placed abuse is a boomerang. The maliciously falsified account of the Newlands' open-air meeting as published in the Gazette last night, will prove a vote-maker for the fusion ticket. There was an attempt at artful concealment of innuendo in every line of the scurrilous article, but it was an amateurish and crude bit of work.

Register! Register! Register!!!
Let no Democrat or Silver party man fail to register. The Registry Agent will not carry the name of any person forward as in former years. Each voter must appear in person to have his name placed upon the list. Don't fail to do this before the 20th day of October, which is the last day of registration.

Meeting of the
State Red Cross.

The Red Cross Society of Nevada met yesterday in Carson. There were a number of delegates present. Mrs. S. P. Davis of Carson was elected president; Miss Lida Russell, first vice-president; Mrs. F. E. McIntire of Elko, second vice-president; Miss Stella Webster of Reno, secretary; Mrs. J. F. Stewart of Reno, treasurer.
An extended communication was read from Miss Clara Barton and routine business transacted.

Hoyt's "A Texas Steer."
Fantastic as the title is, suggestive of a riot of nonsense and frolic, "A Texas Steer," which will be seen here at McKissick's Opera House Saturday evening, presents an interesting story in a legitimate, dramatic way, bringing out human character consistently, and following carefully a distinct and ingeniously constructed plot. Mirth, gaiety and absurdity are but reasonable adjuncts of the scenes and incidents of the piece.

A. Sauer of Washoe met with a serious accident yesterday. The old gentleman, who is blind, stepped off his porch and fell six feet, injuring his hip.

Dramatic Club
Elects Officers.

The Reno Dramatic Club held its regular annual election of officers last evening at the residence of F. F. Dann. The following officers were selected: President, Mrs. B. C. Shearer; vice-president, Prof. N. E. Wilson; secretary, Mrs. A. W. Cahlan; treasurer, B. C. Shearer; executive committee, H. E. Dexter, W. W. Hunter and A. W. Cahlan; stage director, F. F. Dann.
Among other matters discussed was a proposition to give an entertainment for the benefit of the Kindergarten school to take place soon. Refreshments closed a very enjoyable evening.

Northern Traffic.
Yesterday morning a special train of cars came in over the N.-O.-O. Fourteen of the cars were filled with lumber, door stock and box shooks, and two were loaded with concentrates from Plumas county mines. The door stock and sugar pine lumber in the shipment were billed for Sydney, Melbourne and other Australian points. All but two of the cars were Sierra Valley R. R. rolling stock. There is no longer need for transfers at Plumas junction.
